COMPUTER SCIENCE

2210/13

Paper 1 Theory

October/November 2022

1 hour 45 minutes

You must answer on the question paper.

No additional materials are needed.

INSTRUCTIONS

- Answer all questions.
- Use a black or dark blue pen. You may use an HB pencil for any diagrams or graphs.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do **not** use an erasable pen or correction fluid.
- Do not write on any bar codes.
- Calculators must not be used in this paper.

INFORMATION

- The total mark for this paper is 75.
- The number of marks for each question or part question is shown in brackets [].
- No marks will be awarded for using brand names of software packages or hardware.

1 Five components are shown.

Tick (✓) to show whether each component is an example of input, output or storage.

Component	Input (√)	Output (✓)	Storage (✓)
actuator			
register			
sensor			
mouse			
Digital Versatile Disc (DVD)			

[5]

2 (a) Denary values are converted to binary values to be processed by a computer.

Draw **one** line from each denary value to the correctly converted 8-bit binary value.

Denary	8-bit binary
	11110101
72	01110010
	11100101
245	00010101
15	00001111
	01001000
Vorking space	

[3]

	(b)	Binary values can be converted to hexadecimal values.	
		Give the hexadecimal value for the 16-bit binary value 0000100110101110	
		Working space	
			[3]
3		sica wants to store a large number of small thumbnail images on a USB flash memory dr th thumbnail image is 16-bit colour and is 100 pixels wide and 100 pixels high.	ive.
	She	e has 5MB of storage space available on her USB flash memory drive.	
	Cal	culate how many images she can store in the 5MB of storage space. Show all your working	
	Nur	mber of images	[4]
			ι'.

ACC	ompany wants to manufacture a mobile phone.	
(a)	The company needs to decide which touch screen technology to use.	
	State one type of touch screen technology that you recommend the company use.	
	Justify your choice.	
	Touch screen type	
	Justification	
		 [4
(b)	The mobile phone uses Random Access Memory (RAM) and Read Only Memory (ROM).	
	RAM and ROM are both examples of the same type of storage.	
	Identify this type of storage and justify your answer.	
		ΓO

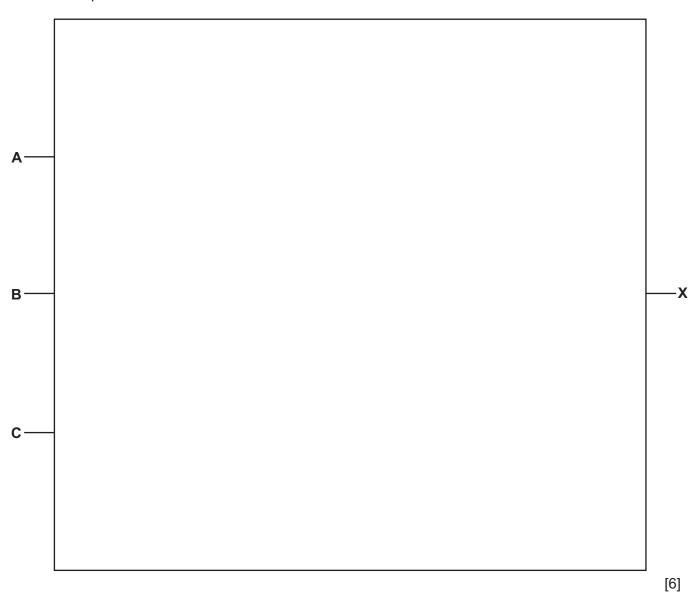

(c)	The	mobile phone has a USB port to allow a USB connection to a computer.
	(i)	Describe how data is transmitted using a USB connection.
		[2]
	(ii)	One benefit of a USB connection is that the cable can only be inserted into the port one way, so an incorrect connection cannot be made.
		Give three other benefits of using a USB connection to connect a mobile phone to a computer.
		Benefit 1
		Benefit 2
		Benefit 3
		[3]
(d)	mol	en a user is reading a text on the mobile phone, they may also get a telephone call on the bile phone. An interrupt signal is generated that results in an output to inform the user that erson is calling them.
	Des the	scribe how the interrupt signal is processed to inform the user that a person is calling m.
		[4]

5 Consider the logic statement:

$$X = ((((B AND C) OR NOT C) NOR B) XOR NOT A)$$

(a) Draw a logic circuit to represent the given logic statement.

Do ${f not}$ attempt to simplify the logic statement. All logic gates must have a maximum of ${f two}$ inputs.

(b) Complete the truth table for the given logic statement.

Α	В	С	Working space	х
0	0	0		
0	0	1		
0	1	0		
0	1	1		
1	0	0		
1	0	1		
1	1	0		
1	1	1		

6

A museum has Quick Response (QR) codes that allow visitors to view videos for extra information

about items in the museum. The visitor is given a portable device with a display screen, that they can use to read each QR code. (a) Describe how the QR code is read and processed to display the video for the visitor. **(b)** Tick (✓) to show whether the videos are MP3 files, MP4 files or MIDI files. Tick (√) MP3 files MP4 files MIDI files [1] (c) The video files are compressed using lossy compression. Give **two** benefits of using lossy compression to compress the video files. Benefit 1 Benefit 2

[2]

(d)	The portable device has a Light-Emitting Diode (LED) display screen to allow the visitor watch a video.	to
	Describe how the LED screen operates to display the video.

		Г 4

7	The paragraph explains how an instruction is processed by the Central Processing Unit (CPU).
	Complete the paragraph using the list of terms. Not all terms in the list need to be used.

- address bus
- Arithmetic Logic Unit (ALU)
- calculations
- data bus
- decoded
- execute
- fetched
- interrupt
- Memory Address Register (MAR)
- Memory Data Register (MDR)
- Program Counter (PC)
- protocol
- ROM
- stored

An instruction is	from RAM into the CPU, where
it is temporarily stored in the	
then sent along the	to the Control Unit (CU) to be
	The
will then perform any	and logic operations that are
required to	the instruction.

[7]

8

A computer can have both a Media Access Control (MAC) address and an Internet Protocol (IP)

addı	ress.
(a)	Give two similarities between a MAC address and an IP address.
	Similarity 1
	Similarity 2
	[2]
(b)	Give two differences between a MAC address and an IP address.
	Difference 1
	Difference 2
	[2]
	[6]

10 Mario has a website that he uses to sell his artwork.

(a)	The	website uses HTTPS to transmit data.				
	(i)	Describe what is meant by HTTPS.				
		[3]				
	(ii)	One way a user can check a website uses HTTPS is to check whether the Uniform Resource Locator (URL) begins with HTTPS.				
		Give one other way a user can check if a website uses HTTPS.				
		[1]				
(b)		re is a risk that people that use the Internet to access websites can have their stored data iciously damaged.				
	Sta	te three ways that stored data can be maliciously damaged.				
	1					
	2					
	3	[3]				

Permission to reproduce items where third-party owned material protected by copyright is included has been sought and cleared where possible. Every reasonable effort has been made by the publisher (UCLES) to trace copyright holders, but if any items requiring clearance have unwittingly been included, the publisher will be pleased to make amends at the earliest possible opportunity.

To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced online in the Cambridge Assessment International Education Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download at www.cambridgeinternational.org after the live examination series.

Cambridge Assessment International Education is part of Cambridge Assessment. Cambridge Assessment is the brand name of the University of Cambridge Local Examinations Syndicate (UCLES), which is a department of the University of Cambridge.
